

Product Platform Rulebook launch

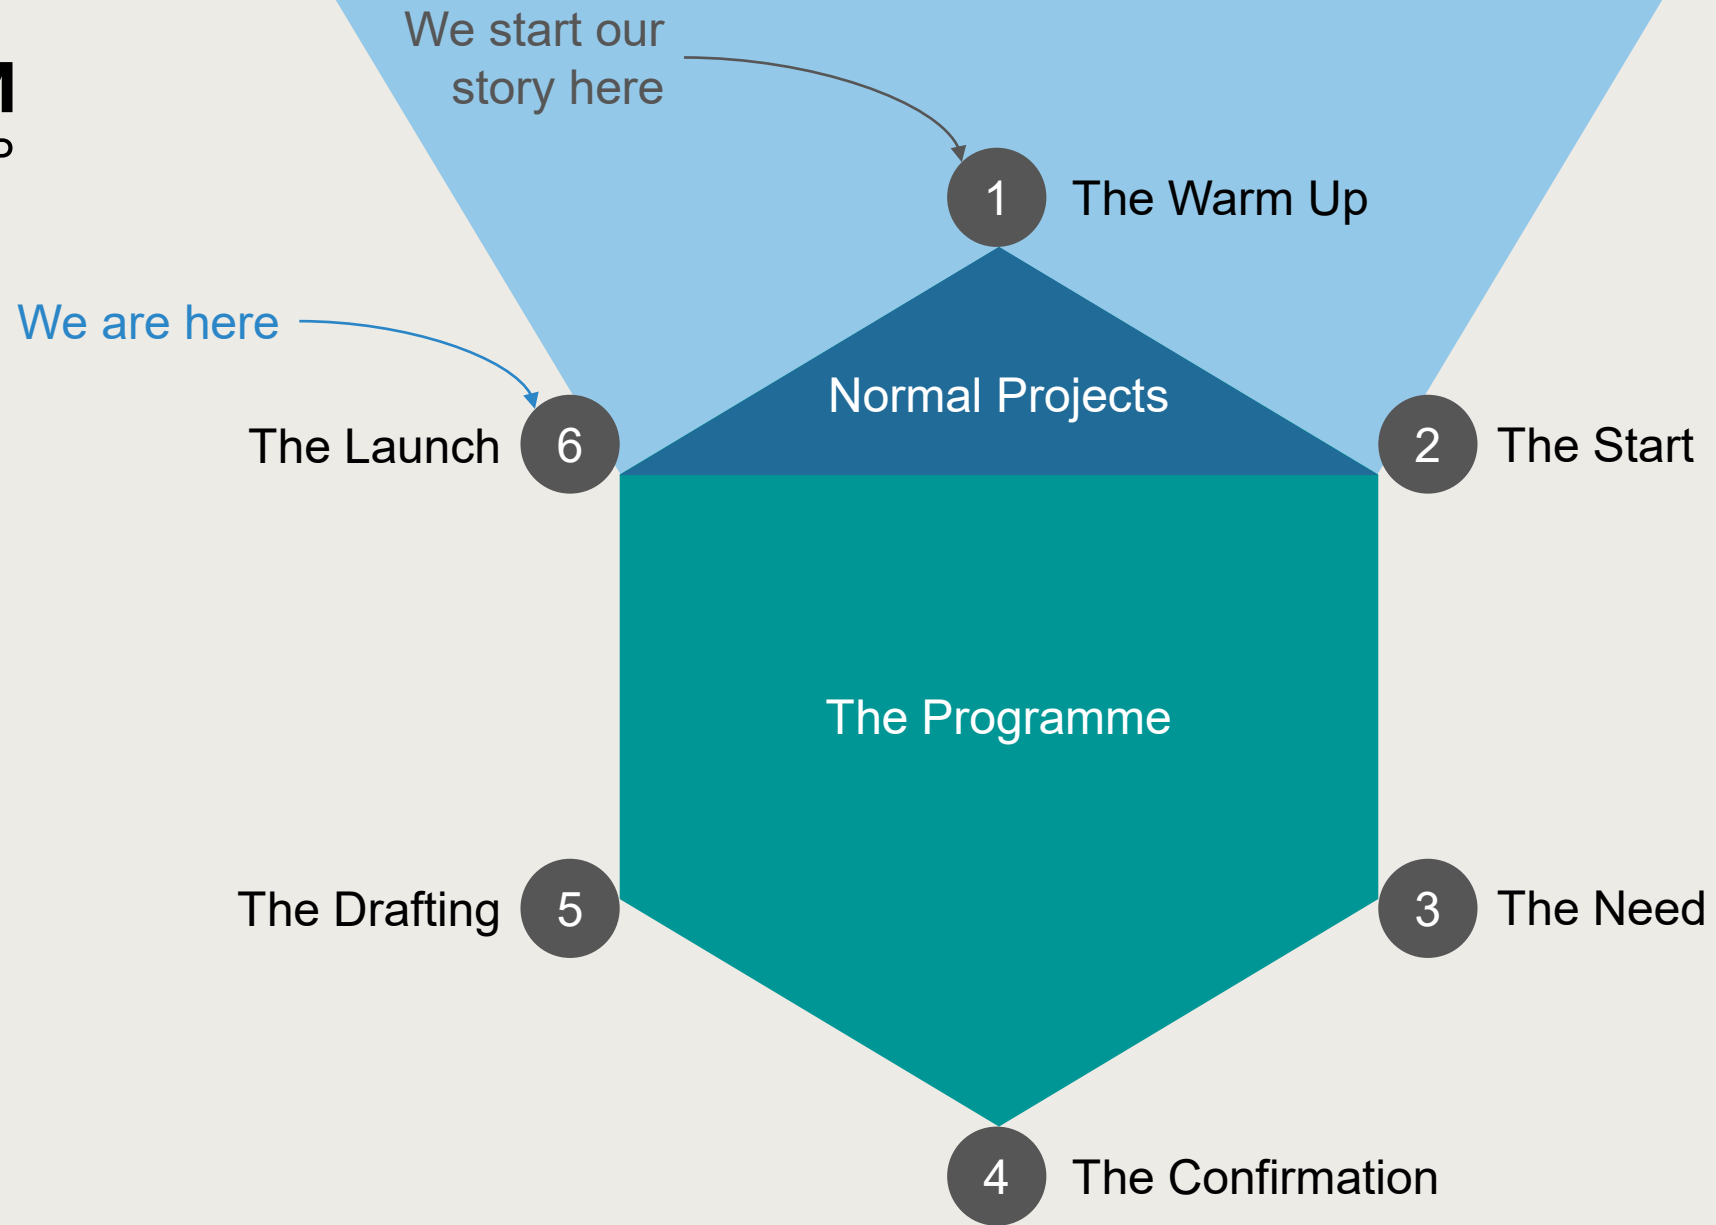

Developing the Rulebook, and
what needs to happen next

Ben Carlisle

Global Practice Leader for DfMA
Mott MacDonald

22 September 2022

Chapter 1

The Warm Up

In which our cast hears the platform call

Platform Design Open Call

Applications open: 29 August 2019

Register your interest:

<https://constructioninnovationhub.org.uk/platform-design-open-call/>

Chapter 2

The Start

In which our cast gets stuck into the programme

Drumbeat

Project managers

Programme

Organisation chart

Skills, experience, enthusiasm

Designers, suppliers, contractors

Client

Works information

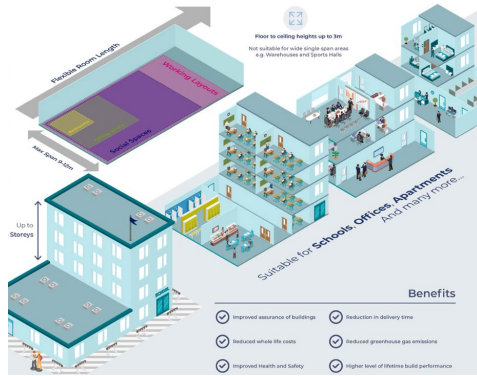

Project stage

Chapter 3

The Need

In which our cast understands more of the challenge and starts to question whether one solution is the right approach.

Hypothesis

Defining the Need

Design

Configurator

Specification maturity

Working Groups – Departmental and digital

Chapter 4

The Confirmation

*In which our cast gathers broader feedback
and determines that we need a Rulebook*

=

A Platform?

7

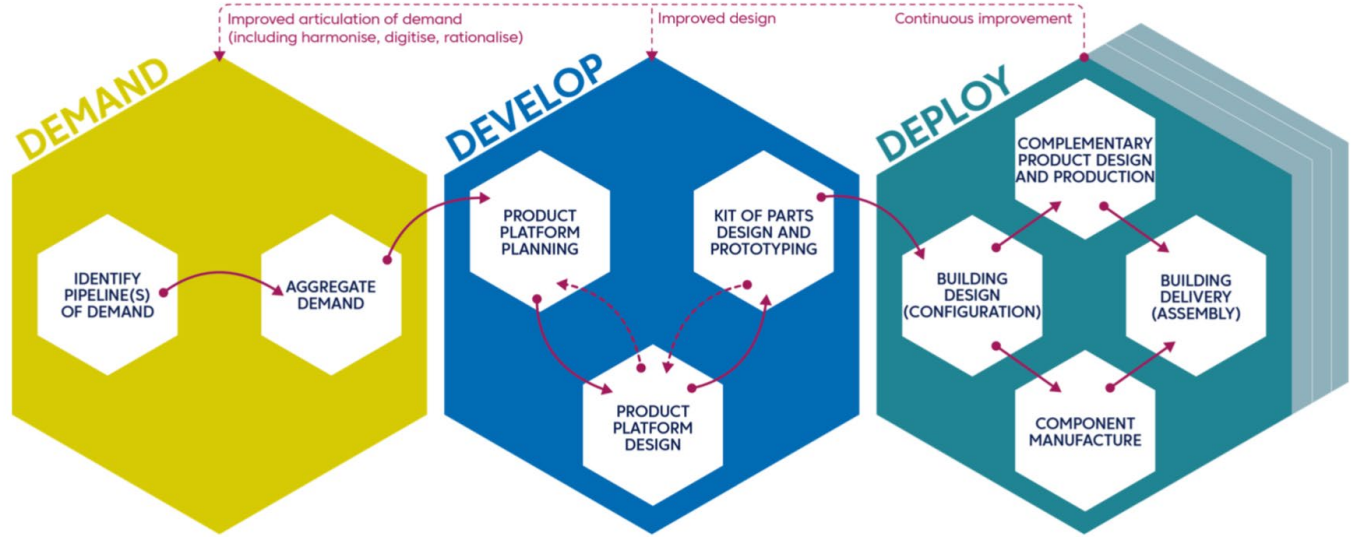

Workshops

Reinforced by Transforming Infrastructure Performance – Roadmap to 2030, published in October 2021.

Product Platform Development Framework

The Road to the Rulebook, published December 2021....

...which set out the Product Platform Development Framework

Chapter 5

The Drafting

*In which our cast embarks on the creation of
the Rulebook*

Aims

To support

“the development and use of consistent, structure, rules and language to facilitate a shared understanding”

(Construction Playbook), and to

“set the framework for, and inform the development of, platforms and the configuration of different ‘kits of parts”

(TIP: Roadmap to 2030) by:

Educating

Introducing the principles of product platforms.

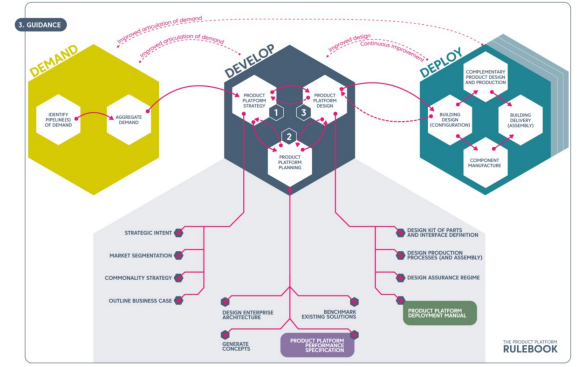

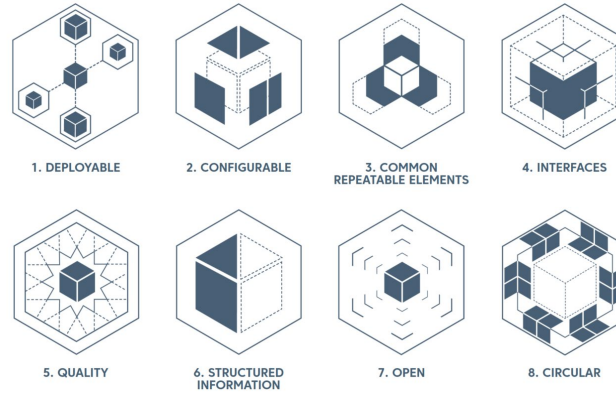

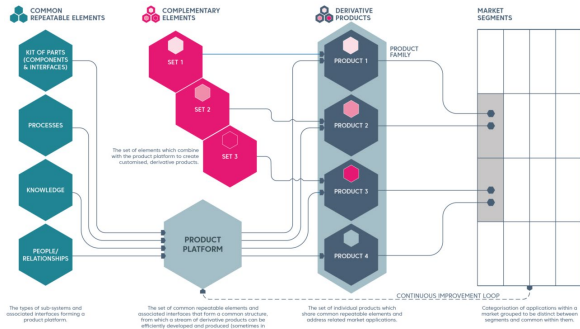

Empowering

Providing a framework that guides, supports and empowers those seeking to develop and/or deploy product platforms.

Enabling

Establishing rules, principles and a framework that support consistent development and deployment of product platforms.

Fundamentals

The principles of product platforms, what they are and the benefits that they can bring in the construction sector.

Rules

A set of Rules which must be adhered to, and a set of Principles that should be followed, in order to develop a valid product platform.

Guidance

Guidance for those wanting to develop a product platform, including how to create the conditions to enable their successful use.

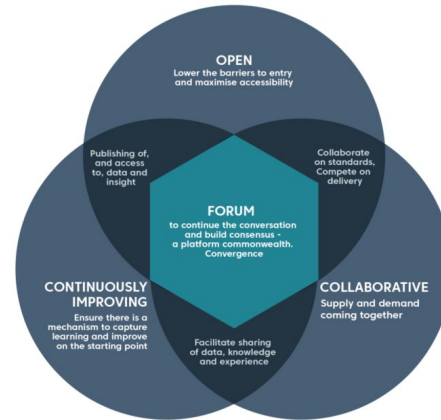

Educate

Empower

Enable

Legacy

An outline of how the Rulebook is expected to evolve and the roles involved in this.

Recommendations

Actions for government and industry to promote the use of product platforms and next steps

Examples

Case study examples of how product platforms have been applied in practice.

Chapter 6

The Launch

In which our cast presents the Rulebook to you and asks you to join us for the next stage of the journey

The end of the beginning?

The Rulebook is now “out there” and is being used across public and private sector applications.

Jamie Hillier, Ron Lang, Trudi Sully, Paul Taylor,
Jonny Reid, Abbie Romano, Sue Harley-Mills,
James Brockett, Ruth Day and Keith Waller,

The teams at Buro Happold and Grimshaw, the
Strategy Board,

All those who have helped through workshops,
consultations, reviews and case studies.

What **we** are doing next

1. Economic and organisation change for **commercially viable adoption** of platforms
2. Developing more detailed **case studies**
3. Active engagement with and support for **departmental clients** on Rulebook **implementation**.
4. The production of associated Platform **Deployment Manual(s)** to support key market segments.
5. Rulebook **legacy and governance strategy**, and commencing implementation.

What **you** could do next

1. Help us shape the **legacy**
2. Help us with **case studies**
3. **Use** the Rulebook and **share learning**

Thank you
